Testmoz is a test generator that sports 4 question types, automatic grading, a really simple interface and detailed reports.

Testmoz is **free**, and does **not** require you (or your students) to register.

You can build a fully functional test in about a minute, so why don't you give it a try and [generate a test?](#)

And for a mere \$20/year, you can unlock some [potentially useful features](#).

## Test name, and password

The password prevents other people from editing your test, or viewing its reports.

**Warning:**

1. Don't forget your password (you can't recover it!)
2. Don't forget your test URL (you'll see it on the next page)

If you want, you can [sign up](#) for an account (reasonably priced at just \$20/year) to get a fancy little test manager, email notifications, data collection/survey questions, a public list of all your tests (ex: [testmoz.com/class/1](http://testmoz.com/class/1)) and [other stuff](#).

Testu se mogu mijenjati postavke, dodati opis i zaključak, unijeti zaporku i sl.

Pitanja se dodaju klikom na *Add new question (Dodaj novo pitanje)*.

Ne zaboravite nakon svakog unesenog pitanja s odgovorima sačuvati promjene (*Save*).

Kad sve završite, javno objavite kviz (*Publish*) te podijelite s učenicima URL testa i zaporku (ako ste je stavili).

Ako želite unijeti formulu otvorit ćete Online LaTeX Equation Editor, (<https://www.codecogs.com/eqnedit.php>)

ali Vam za ugrađivanje u test treba njezin HTML koji ćete kopirati i zalijepiti
