**12 December 2014 (Friday)**

9:00 - Further work (at School): Evaluation lists, Certificates  
Farwell party; Leaving Croatia

On December 8, 2014 nineteen teachers of Mathematics, English language, Information Technology and Electrical Engineering arrived from Romania, Cyprus, Turkey and Spain to Metković, Croatia to visit the Grammar School Metković in order to carry out a series of working meetings on the project *“What’s the Use of It”* within Erasmus +

It is a transnational project which deals with both students mobility and sharing experience in improving the teaching skills in Maths. The main project team is the group of teachers of Mathematics led by Mrs Ljiljana Jeličić.

The guests were welcomed both by the school principal, Jozo Jurkovic at the opening ceremony in the school and Miss Katarina Ujdur, Deputy Mayor in the Town municipality.

The school principal

The Croatian team

Each team was supposed to make a presentation on their school, town, country with the idea of breaking ice and getting to know each other better.

Croatian presentation

All participants in front of the school

In addition to the working sessions, the guests had the opportunity to get to know the town, visit the ancient Archeological Narona Museum, take a ride in the typical boats on the Neretva. They were also taken to the nearby towns of Ston and Dubrovnik, the Pearl of the Adriatic.

Archeological Narona Museum

Photo safari

From Dubrovnik

To get to know what the school program is like, a few guests were present to some classes while our teachers were teaching students in Mathematics, English language, Arts and the Croatian language. It could be a good practice because the guests had an excellent experience!

Several undergraduates spontaneously came up with an idea to make a short interview with the foreign teachers in English for their project by Goethe Institute Schülerzeitung Nasch-PASCH. You can see the video on the school website.

The official part of the Croatian meeting finished with filling in the Evaluation Form, the Report of which is enclosed below.

Next meeting will be held in Cyprus on 24 February, 2015

## REPORT

### On the results from Evaluation Forms

On 11 December 2014 all the members were asked to fill in the Evaluation Forms. This report examines: a) Course design, b) Facilities/Arrangements and c) Comments/Suggestions and Recommendations.

- a) **Course design:** 87% of surveyed teachers strongly agree that the course was well organized despite the fact that a few think that it was not clear what they were supposed to do.
- b) **Facilities/arrangements:** everybody, with no exceptions, agrees that accommodation, food, meeting rooms and premises, as well as school administration, together with host teachers and students were not just satisfactory, but absolutely perfect.
- c) **Comments/recommendations:** 60 % of the teachers agree that the workshop can be graded as excellent and the rest as good. Apart from their expressing gratitude for all the hospitality and generosity, students' behaviour during the sessions, perfect experience from class visits, after-school activities/ trips, there are a few suggestions:
  - On teaching statistics
  - on being well informed in advance
  - on tasks which have to be discussed in details

Metković, 20 December 2014

## PARTICIPANTS IN THE PROJECT

Country	School	Name
Croatia	Gimnazija Metković	Ljiljana Jeličić
Croatia	Gimnazija Metković	Ljubica Jerković
Croatia	Gimnazija Metković	Mirko Crnčević
